Executive summary

Juniper & Coast ended Q3 2025 with 468,940 mailable SMS subscribers, up 14.0% from 411,280 on June 30. Messaging generated \$1.84 million in reconciled attributed revenue across broadcasts and automated flows, a 21.7% increase from Q2. Revenue per delivered message improved from \$0.296 to \$0.311 despite one underperforming Pacific Northwest flash-sale branch.

The largest single campaign was the Trailhead 36-Hour Flash Sale on August 22-23. It produced \$286,740, equal to 15.6% of Q3 messaging revenue, but missed its \$318,000 target. The associated PNW throughput incident reduced regional response and is documented in RF-INC-2025-0822-PNW.

Regional breakdown

Region	Delivered messages	Unique CTR	Revenue / send	Attributed revenue	Narrative
Northeast	1.02M	7.8%	\$0.344	\$350,880	Best RPS; rainwear launch aligned with early storms
West	1.47M	7.2%	\$0.318	\$467,460	Largest revenue region; stable opt-out rate
Central	1.31M	7.0%	\$0.305	\$399,550	Cart Flow growth offset softer broad campaigns
Southeast	0.71M	6.8%	\$0.296	\$210,160	Warm-weather category mix lowered outerwear AOV
Mountain	0.57M	7.1%	\$0.301	\$171,570	VIP early access performed above plan
Pacific Northwest	0.84M	6.3%	\$0.286	\$240,240	Flash-sale branch delayed by 3 TPS route; otherwise 6.9% CTR

Trailhead Flash Sale detail

The Trailhead campaign delivered 135,721 messages and generated 2,401 attributed orders at \$119.43 AOV. Actual attributed revenue was \$286,740 versus a \$318,000 plan. Outside the PNW branch, unique CTR was 8.4%; the PNW branch reached 5.1% and generated \$28,460 versus a \$51,900 regional target.

The campaign still protected 49.1% gross margin and cleared 6,812 late-summer units. MMS improved click-through 18% among on-time recipients, supporting a narrower MMS strategy for high-intent outerwear cohorts.

List churn and message pressure

Gross Q3 list churn fell to 2.4%. The highest single-send opt-out rate was 0.44% on the July 27 broad Summer Reset message. Subscribers receiving 9 or more promotional messages in 30 days opted out at 1.7x the program average, leading to a stricter 12-message monthly cap and lower cadence for E3 Passive subscribers.

Q4 priorities

- Complete throughput preflight and MMS-aware alerting from the Trailhead incident.
 - Expand 5% regional holdouts to estimate incremental revenue instead of relying only on attributed revenue.
 - Move E4 Cooling subscribers to a monthly repermission path before holiday volume increases.
 - Use Summit Circle VIP early access for the November Ridgeway System launch.
 - Reconcile Shopify refunds daily during Black Friday week and annotate dashboard latency.
